

November 30, 2013

Tri-Star Disaster Recovery Inc.
Attention: Calvin Addley, Project Manager

I would like to start this letter of recommendation with a heartfelt thank you. After the floods of July 2013, we had an enormous amount of water in our basement. Calvin and his crew were very knowledgeable and took the time to explain what steps needed to be followed.

Calvin and the team Tri-Star worked very hard to ensure that we had a healthy home to come home to. Your efforts were very much appreciated and your craftsmanship was noticed. Tri-Star is the only company that we will allow into our home.

Calvin, in the past four weeks we have gotten to know you and your crew very well. It brought a tear to my eye to see the extra efforts that you put forth, it truly touched our hearts.

Best regards,

Luigi Prozzo
